

Advanced Technology Meets Unwavering Safety

Meeting You Where You Are

With an extensive inventory of industrial scaffolding systems strategically located throughout the United States, we can respond immediately to your needs in any location. Combined with our highly skilled teams, AXIOS is equipped to craft dynamic scaffolding solutions quickly and safely.

“We face a number of challenges in our industry with regards to schedule and cost. When we combined the AXIOS expertise along with the PERI UP modular system, we were able to increase productivity and efficiencies while reducing our direct labor costs. The partnership and the support from AXIOS has been exceptional.”

Whether you require scaffolding for capital projects, turnarounds or routine maintenance, trust AXIOS Industrial to help you succeed. Our industrial scaffolding solutions deliver flexibility, dependability and full adaptability for a variety of extreme conditions. Simply put, there’s no scaffolding project too complex for our best-in-class team.

Groundbreaking Technology

AXIOS is committed to using advanced scaffolding materials, systems and techniques to maximize value for our clients. Utilizing CAD, Navisworks and Avontus Scaffold Designer, our experts transform SmartPlant models into custom scaffolding solutions that meet the needs of even the most complex projects. Our unique 3D scaffolding designs also include an exact material list for each scaffold required, alleviating assumptions and guesswork from the start.

PERI UP Rosett Flex

AXIOS utilizes the PERI UP Rosett Flex modular scaffolding system to deliver unrivaled safety, productivity and flexibility. PERI UP is the most advanced scaffolding technology on the market today. This trusted system delivers unrivaled quality in a modular design that streamlines the assembly process. It features pre-engineered main components and self-locking ledger connections. PERI UP also boasts a generous load-carrying capacity and horizontal members that are tested and certified for tie-offs up to three meters in length.

- / PERI UP Gravity Lock technology maximizes safety and speed during the assembly process
- / Multi-purpose ledgers can be used as a guardrail above the deck, and provide extra support at deck level to reduce the overall number of components
- / Its modular design can connect to nearly any structure, and integrates seamlessly with piping installations to deliver a safe, gap-free working platform
- / Colored toe boards help teams identify, and mitigate, safety risks
- / The PERI UP scaffold system has passed all seismic qualification tests

Crafting Solutions for Complex Industries

When your job has no margin for error, trust our team to help you succeed. We have a proven track record for helping

clients overcome key challenges in some of the most complex industries known to man.

- / Oil and Gas
- / Agriculture
- / Power Generation
- / Pharmaceutical
- / Pulp and Paper

The AXIOS Safety Promise

- / Actively reinforce our commitment to employee health and safety
- / Promote the daily evolution of our behavior-based safety programs
- / Deliver a positive mentoring environment to reinforce our safe work practices
- / Recognize and reward safe work practices

You Deserve to Work With the Best

AXIOS is an industry-leading provider of industrial scaffolding, insulation, coatings and other specialty service solutions for turnarounds, capital projects and routine maintenance.

Our custom solutions are backed by unparalleled industry experience. Request a demo today and let us prove it to you.
